

## SebaFlow

### Continuous zone monitoring and flow measurement with ultrasonics

#### Special features:

- Maintenance-free flow measurement
- Early leak detection
- Installation without supply interruption
- No chamber construction necessary
- Precise measurements even at low flow rates
- Data transmission to the SebaCloud or to the customer's own FTP server

#### Description

SebaFlow enables the continuous flow and zone monitoring of a pipe network section (DMA District Metering Area) through the use of ultrasonics.

Installation is managed without interrupting the water supply by means of attaching sensors to the outside wall of the pipe. SebaFlow is robust and maintenance-free, allowing installation without chamber construction.
