

## Sebalog D-3

### Pressure and flow rate data loggers with GPRS

#### Special features:

- Simple installation
- Alarms conveniently sent to smartphone
- Memory for over 1 million readings
- Remote configuration via GSM / GPRS / 3G / UMTS
- Server hosting via SebaCloud
- Compact and robust design for maximum safety

#### Description

Thanks to its compact and robust design and the totally waterproof housing, the Sebalog D-3 data logger is very hard-wearing. It reliably informs you of the flow rate status from the pressure and flow measurements in your supply network on up to 4 channels.

Great emphasis was placed on user-friendliness with the Sebalog D-3. It supports online measurements on all channels which enables you as the user to Access any saved measurement data and up-to-date readings at any time from the convenience of your smartphone.
