

## TDM 300

### Portable system for quick and exact flow measurement

#### Special features:

- Ideal for temporary flow measurements
- Wireless communication
- Optional alarm transmission
- Integrated pressure sensor
- Adaptable for all connections

#### Description

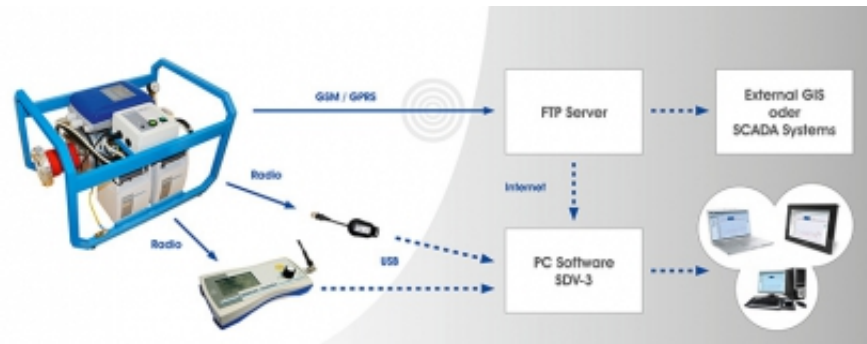

The TDM 300 flow meter is easy to install and enables a quick and exact flow measurement.

The user can watch the actual flow on the flow meter's LCD display or send the flow data wirelessly to a hand-held data collector. The TDM 300 is equipped with an internal data logger on which all measurements can be stored or send automatically via GSM / GPRS / 3G or UMTS to your control centre or saved in the specially developed SebaCloud.
