SebaCloud™

Pressure logger

Noise logger

General data logger

## SebaCloud™ web software

Online access to all your data –  
anytime and anyplace:

- Leak noises
- Meter readings
- Flow rates
- Pressure ratios
- Alarm messages

# SebaCloud – Leak location in the 21st century

## Description

SebaCloud™ is the web software of SebaKMT and it provides an overview of your entire network all the time, enabling you to view current and historical measurement data and track how the readings change over long periods. As well as this, you can save pipe network data, correlate measurement results and use network diagnostic functions.

**SebaCloud™ is compatible with all operating systems and terminal devices.**

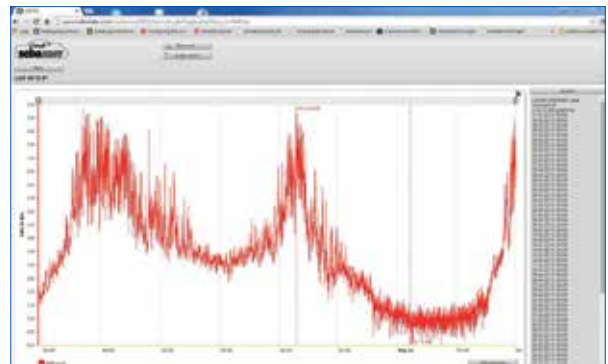

*Online correlation of acoustic data from a Sebalog N-3 noise logger network*

## The online solution

**With SebaCloud™ your data becomes mobile:**

Using the web browser, you have constant access to exactly all the information and data you need:

- Leak noises
- Meter readings
- Flow rate
- Pressure ratios
- Alarm messages

*Online flow rate monitoring with data from the SebaFlow ultrasonic testing device*

## All the information at a glance

# SebaCloud – Exploit the benefits

## Special features

Clear and comprehensive presentation of your water network

Remote configuration of important measurement parameters

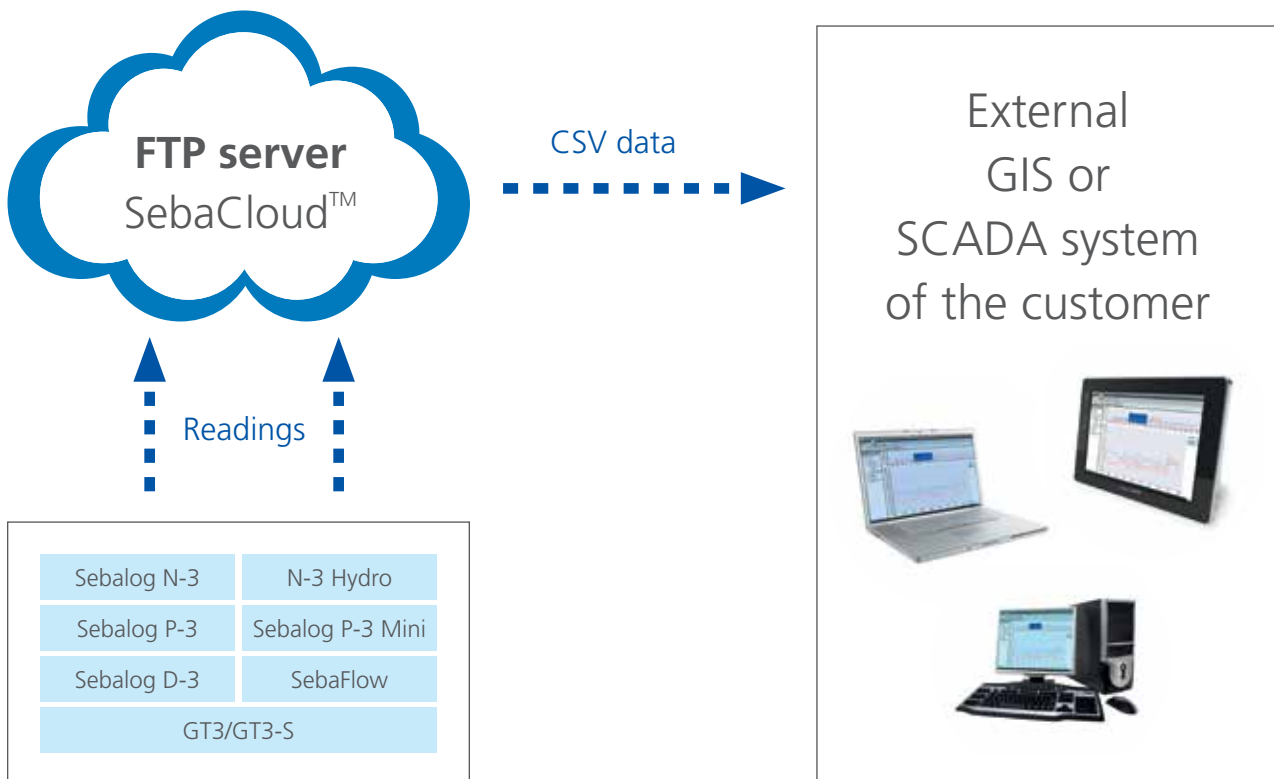

Trunk main monitoring

Immediate warning of problems in the network operation

All pipe network data can be accessed at any time from in or out of the office

Integration in GIS / SCADA systems

## Diagram of the GIS / SCADA system

## Components for SebaCloud pipe network monitoring

### Sebalog N-3 / N-3 Hydro

#### Noise logger for any situation

- For mobile applications
- For use in permanent networks
- In combination with hydrophones

### Sebalog P-3 / Sebalog P-3 Mini

#### The customized pressure logger

- Extremely small, robust and durable
- Wireless interface and large internal memory
- Connection directly on hydrants or using pressure hoses

### Sebalog D-3 / Sebalog Dx

#### The universal data logger

- Large internal memory
- Integrated GPRS modem
- Non-stop real-time measuring

### GSM Transmitter 3

#### Data transfer from noise level and pressure loggers

- Fits into small valve shafts and underground hydrants
- Up to 3 devices can be connected at the same time
- Batteries can be replaced by the user

### GSM Transmitter 3-S

#### Data transfer from noise level and pressure loggers

- GPS synchronization
- Fits into small valve shafts and underground hydrants
- Up to 3 devices can be connected at the same time
- Batteries can be replaced by the user

### SebaFlow

#### Stationary ultrasonic flow meter

- Installation without supply interruption
- No shaft construction necessary
- Precise readings even at low flow rates
